stocks will not, and perhaps cannot, reduce prices. Compared with conditions of a year ago, there is good reason to believe in, and expect, firm and strong prices to prevail on farm seeds during the coming months.

**RED CLOVER:** The market has been continuously strong with advancing tendency throughout the fall months, prices today ranging fully \$2.00 per hundred higher than at the beginning of the Crop movement. There is every reason to expect a firm, strong market will prevail on this item.

**ALFALFA:** There has not been a year since Alfalfa has been used widely, that seed of the most adaptable origin and of excellent quality has been available at such attractive prices. There is no excuse for any farmer in this territory sowing Southern grown unadaptable seed. It is the duty of the merchant to provide seed which is best suited for our territory.
